

Jones And His Job

Calgary, June 19.—The crusade against the police instituted by the Citizens' League last December is still in a crop of victims. Clifford Jones, counsel for the Reformers, had not been paid his fee of fifty dollars per day and yesterday issued a writ against several members of the League to recover. In this morning's Alberta, T. A. P. Frost, secretary of the League, came back with a nasty letter insisting that Mr. Jones was not worth the price charged and had been guilty of disloyalty to his clients. This afternoon Mr. Jones, through Walsh and McArthur served Frost with a writ in an action for ten thousand dollars. Mr. Frost is leaving for England this week to act as executor of the estate of his father-in-law who was a wealthy man.

Mrs. Frost's letter was as follows: Editor Alberta:—An article appeared in the Herald last night in which the impression was given that the Citizens' League is refusing to pay their lawyer, Mr. Clifford Jones, for his services in prosecuting the case for them against the police force. In order to correct the misapprehension which arises from the foregoing article, I wish, on behalf of the League, to say that the League never has and does not now repudiate an indebtedness to Mr. Jones, nor is it their desire to evade any of their obligations. It is true there has been some delay in payment of the account, but the reason for this is that there is a wide diversity of opinion as to the value of the service rendered by the League which fifty dollars a day is high for Mr. Jones at his best, and extremely exorbitant when his disloyalty to the cause he was engaged to plead was so apparent. I am instructed to say that the League intends paying Mr. Jones every cent he asks, notwithstanding the fact that the best lawyers in the city advise him under their circumstances he could not collect it.

Yours truly,
T. A. P. FROST,
Secretary Citizens' League.

Spectacular Raid On Gamblers

New York, June 19.—Three thousand persons gathered along the West Forty-third street near Broadway to tonight and watched the police make a spectacular raid on a gambling house said to be patronized by guests of several of the up-town hotels. The police force of their way into a room where several persons were found seated round gambling tables.

The patrons of the house, all attired in evening clothes, endeavored to get away by the fire escapes, but were confronted by detectives who had been placed at every possible exit. The managers of the place and the patrons were taken to the police station in patrol wagons.

Ammunition For Cuba

New York, June 19.—Agents of the treasury department seized on board the steamer Segurana, of the Ward Line, twenty rounds of ammunition which were intended for shipment to Cuba.

What significance, if any, attaches to the seizure could not be learned. It is said that Octavio A. de Zayas, consul general of Cuba in New York, recently was informed by the Secret Service bureau at Washington that the bureau had learned of plans under way in the United States and Cuba for the organization of an insurrectionary movement on the island. As a result, the bureau has been on the lookout here for this possible shipment of arms, of ammunition.

Withdrawn The Bill

Str Wilfrid Laurier had better withdraw the Aylesworth Election Bill and let the business of the country proceed. This measure has been before Parliament for nearly two months and there is as much chance becoming law today as there was when it was first introduced. The free representatives of the people would certainly be untrue to their trust were they to consent to it. By the verdict of Ontario, and the changed sentiment in Quebec, they are unendowed to continue the fight for party liberty.

The two worst features of the bill are, of course, those dealing with voters' lists and destroying the secrecy of the ballot. By all the provisions voters' lists are made under judicial supervision. It is not necessary to make new ones for Dominion elections. Certainly it is improper to connect such lists through the agency of Government appointees, as proposed by Mr. Aylesworth, and in the hands of a campaign. The measure would mean for Manitoba the disfranchisement of thousands of electors as in the contest of 1904, and it would give legal force to such wholesale fraud as was attempted in New Ontario on behalf of the Dominion Government in the same contest. The proposal to legalize marked and numbered ballots is entirely improper and absolutely dangerous. If it were to carry, the Government could have the votes of franchise holders in the West, of officials of friendly Provincial Governments, of officers of the International Railway, of operatives of subsidized railways, of employees of contractors, and of workmen engaged in industries which are aided by the tariff, traced. This is a system of penalties could be adopted. Let every vote be traced during a contest that the vote of the electors can be followed and that absolute secrecy is not maintained. The connected lists and the traceable ballot are therefore legitimate objects of the Aylesworth bill that will call for comment if the measure be persisted in. One is the last clause which actually authorizes the collection of campaign funds by party associations and redistribution among the lesser party agencies. This thing is designed to make the machine law. If agreed to, systematic money gathering and money distributing for party purposes is encouraged. Another feature of the bill is an omission. Mr. Aylesworth's Election Bill has a clause which prohibits the corruption of the electors by the offering of public works as inducements to support a particular party. By Mr. Aylesworth this reform is rejected.

The net result of the Aylesworth bill is anything but desirable. Should the measure pass, the corruption of electors by the offering of public works is legal, the collection of campaign funds and their distribution through local agencies is allowable, the ballot is traceable, and the voters' lists are certain selected parts of the Dominion are to be made by politicians. Str Wilfrid had better allow this bill to stand over for the present. We have had a long time on it, and the more the people know of it the less they like it.

Talk Of Renewing Deadlock

Talk Of Renewing Deadlock

Ottawa, June 18.—There is talk in the corridors of a renewal of the deadlock over the Aylesworth bill. The struggle in respect to Manitoba continues, and new complications are said to have arisen regarding new Ontario. More there is talk of an indefinite prolongation of the session.

Tidal Wave Wrought Havoc

Victoria, B. C., June 19.—The British ship Lord Shadsworth which arrived this morning from Port Talbot via Iniquity reported that when three hundred miles west of Cape Horn a tidal wave was encountered when swept her decks, taking all her boats and houses, started the hull, and partially wrecking the ship. Hundreds of tons of water broke over the ship, which was thrown over on her beam and her cargo shifted, one man being washed overboard and drowned. This man John Sylvester, a seaman was the only one on deck. Others there could not have escaped. The crew managed to exist for five days with only meat and water aboard, the galleys and its gear having been swept away and eight days later they worked the vessel into Montevideo, where she was repaired.

While nearing Falkland Island, the ship got into a big field of icebergs and almost collided with one, passing between two during fog so close that her yards touched one.

When nearing Victoria, J. Stanton, a seaman, fell forty feet into the hold and was knocked ashore suffering from internal injuries and sprains to wrist and leg.

Congo Reforms

Brussels, June 18.—Important alterations will shortly be made in the treaty transferring the Congo to Belgium. These alterations would contribute to make the terms of annexation far more acceptable than before to the Belgian people. It is understood that the alterations would bear on the clause of the treaty concerning the public works which King Leopold wanted to have done, and which would have cost Belgium \$9,000,000. According to the projected arrangements, the works which have been begun will be completed. The other alterations will be to the effect that the king as a tribute of gratitude would be paid to him under ministerial responsibility, with the approval of the chamber. Finally, it is proposed to present to the chamber a bill providing that no Belgian soldier will ever be called to serve in the Congo.

Hodgins' Enquiry Ended

Ottawa, June 19.—The meeting of the special committee to inquire into the Hodgins' charges had a long and stormy session today. The Liberal members argued that Hodgins' having withdrawn the committee's mission was ended.

This the Conservatives hotly controverted, declaring that sufficient ground for re-clarification had been advanced to warrant further probing along the matter. Major Hodgins' attitude was merely incidental and not vital to the investigation.

Murphy counsel for the commission, requested leave to call witnesses in order to remove certain imputations. Macdonald deprecated the misrepresentation he and Carvel received from the press, particularly in the maritime provinces. Carvel was supported by Macdonald in moving the evidence be closed and witnesses discharged. Lennox and Barter opposed Chairman O'Brien gave the casting vote in favor of the motion. Committee meets next week to prepare report.

Fighting Joe At It Again

Victoria, B. C., June 19.—The first fatal trial of smoke from the Vesuvius of Dominion politics brings with it the report that a certain human bomb, better known as the Hon. Joseph Martin, is behind the lava that will set the sparks that will set the latent energy detonating will be the selection of a certain gentleman as the Liberal candidate for Vancouver at the next election. The text books say that a ponderable body cannot occupy two separate places at one and the same time. Hon. Joseph Martin is a ponderable body, as many of his former antagonists on the stricken fields of partisan political fights have had reason to know. Yet it is said that he proposes to be in the field in not only Vancouver but the same time. Hon. Joseph Martin is a ponderable body, as many of his former antagonists on the stricken fields of partisan political fights have had reason to know. Yet it is said that he proposes to be in the field in not only Vancouver but the same time. Hon. Joseph Martin is a ponderable body, as many of his former antagonists on the stricken fields of partisan political fights have had reason to know. Yet it is said that he proposes to be in the field in not only Vancouver but the same time.

Record Breaking Battleship

London, June 19.—The admiralty, having eclipsed the Dreadnought class of battleships by the St. Vincent, will, according to the Telegraph, start in September to eclipse the latter, laying down at Portsmouth a new Leviathan with heavier armament and greater displacement. The St. Vincent, which will be launched in October, 1909 is of 19,250 tons and cost about £1,500,000. The new battleship will probably be of 21,000 tons and cost £2,250,000. She is intended to be completed for sea in eighteen months after her keel is laid.

It is stated that she will have two novel features. Instead of twelve masts, which are now the largest guns used in the fleet, she will mount weapons of the new 13.5 type, which have been for some time the subject of experiment. The other feature, the Telegraph understands will be her equipment with gas engine by using which no smoke will be made and therefore the new ship will have no funnels. The paper recalls that Mr. McKeebin, of Vickers Sons and Maxim, announced some time ago that the firm had developed the gas engine to such an extent that it could be employed on a warship. It says the admiralty engineers have since considered this engine and apparently have adopted it.

Diamond Gent Gets Out

Paris, June 19.—The Lemoine diamond case came to a sensational ending with an unexpected climax this afternoon. Lemoine has fled and his famous formula for the manufacture of diamonds is a fantastic farce. Henry Lemoine, the Frenchman, who was taken into custody a few months ago on a charge of having secured money from Julius Wernher, an English diamond merchant, on false pretences. Lemoine declared he could manufacture diamonds, and it is alleged that he secured a large sum of money from Mr. Wernher on this pretence. Lemoine was released to give an opportunity to manufacture diamonds and make good his claim and he was to vindicate himself by exhibiting some of his diamonds. When the case was called in court, Lemoine did not appear, and it was announced that he had fled. In the presence of what had fled. In the presence of Mr. Wernher the court then opened the famous envelope, said to contain Lemoine's formula. The paper inside was read, but it contained only a jumble of fantastic and worthless phrases.

Increased Gold Output

Vancouver, June 19.—Two hundred little bricks of yellow-greenish stone that clinked, allegedly, while being stacked by officials in preparation for transfer to the big vault, brimmed a table in the Vancouver assay office this morning. Any man who viewed them through the iron bars from a respectful distance would have willingly been "gold-bricked" with even the smallest of them, for they represented an aggregate value of \$250,000. The bricks were the first of this season's clean-up in the Klondike and the owners of them the government has just turned over bank cheques calling for that amount of currency. This is the first large single consignment of virgin gold to reach the assay office this year, the results of clean-up in the Cariboo district, not yet having arrived. Ultimately it is possible that this Klondike gold will find its way to the mint at Ottawa where it will go into circulation through coinage.

The business transacted by the Vancouver assay office has shown a wonderful increase lately. Last year the transactions of the office were 100 per cent in excess of those of 1906 and it is fully expected that business this year will show an increase of at least 100 per cent over that of the twelve months of 1907.

Incendiary Fires

Victoria, B. C., June 19.—As to the climax to a series of fires each the work of some incendiary, the paper and box making factory and plant of T. N. Hibben and Co., occupying the top of a three-story building on Government street was destroyed by fire this morning. The damage is about \$25,000 mostly covered by insurance. The fire first began in the work last night, when a fire was discovered with a few yards of the Hibben building, papers and inflammable material piled in an old box in the rear of a wooden frame building at Blanton street. This was quickly extinguished with a chemical and on the morning of this day a fire was discovered in the rear part of an office building situated ten yards away. The next blaze was at Weir Bros. furniture factory and dry kilns on Hill street, the kiln being destroyed. This was also believed to be a fire of incendiary origin. Then at 4:35 the fire department was called to the Metropolitan office block on government street where the incendiary had built some inflammable material and fired it on the main floor near the bank doors, the fire being effected by breaking a glass panel in the door. This was discovered and quickly extinguished.

An Eighteen Hour Speech

Attempts on the part of the obstructionists, or "filibusters" as they are called in America to defeat the Currenry Bill failed but before Senator La Follette, of Wisconsin had broken all records of the Senate by making a speech of eighteen and a half hours' duration. The bill which was introduced to prevent money from being issued in the form of a currency, was strongly objected to by the following: Mr. Bryan, amongst others. Senator La Follette occupies a prominent position.

The Senator declared that the bill should not pass, and announced that he was prepared to go on talking for six weeks. To this Senator Aldrich, who was in charge of the bill, retorted, "You can talk for a year, but it is necessary to pass this bill, and it shall pass." Senator La Follette's speech began at noon on Friday morning and lasted seven o'clock on Saturday morning. During the first twelve hours he gained time by insisting "on the roll being called in accordance with the rules, whenever the senators left the chamber for a moment's rest from his voice, and a squawk was making." From midnight onwards, however, he spoke continuously. Occasionally he would take a sip at a tumbler of ice water, which was constantly replenished, but all the food he had during his long talk was a bottle of water and this at a time. Throughout the night his actress daughter sat in the gallery and cheered him on. At the end of the speech his voice was still clear, and he declared that his feet, which were very tired, were the only things which hurt him. He was supported in his filibustering by Senator Stone and Senator Gore, the blind representative from Delaware. It was the intensity of the latter which at last led to the bill passing.

When Senator La Follette concluded his speech, Senator Stone began, and his predecessor went home to snatch a few hours' sleep. Senator Stone kept at it for six and a half hours. He was followed by Senator Gore who spoke for two hours. At the end of that time he declared that he was tired, but returned and was ready to begin speaking again, and sat down.

Senator Stone had not returned, however, and Senator Aldrich, who throughout the time had been keenly watching for his share, speaking up and called for the division. This was agreed to. As the division bell rang Senator La Follette entered the chamber and loudly protested against the division being taken, but he was overruled by the President, and the bill was passed.

Levesque Holds Laval

Montreal, June 19.—The recent in Laval was ended yesterday, Judge Davidson declaring the Liberal elected by a majority of four over Hon. P. E. LeBlanc, the Conservative leader. The latter will now protest the election of Mr. Levesque.

Whether Mr. Martin in the event of being elected in all these places will be prepared to submit to vivisection, and so pass into history as the "Human Hamburger," yet remains a dark mystery beneath the shadowy wing of fate.

CURRENT COMMENT

The Bulletin declares that the Workmen's Compensation Act which has just been passed by the Alberta Legislature is in a great many respects taking the language of the Minister of the Interior "talking through his hat." The Alberta Act as introduced was a travesty of the English Act and even as amended is conspicuously devoid of any practical similarity to the Act it purports to follow. The height clause alone is enough to raise a laugh anywhere. Unless a man falls at a thirty foot building the Alberta law presumes that his contact with the ground only tickles him. At first it was forty feet and only the strenuous efforts of Mr. A. J. Robertson the member for High River obtained the reduction. We should like to ask the Hon. C. W. Cross and the Hon. W. H. Cushing how many buildings are over forty feet in the capital in this city.

"A whole week has elapsed since the Strathcona Chronicle has tried to abuse The Mail's pencil pusher." It seems to have taken the suggestion, and now is going after the Laurier, Lumber and Lout gang at Ottawa. "Good-We shake on that." So says the Carrow Mail. The Chronicle is conservative on principle and from conviction not as a matter of expediency and has uninterceptedly supported the conservative party. The Mail's pencil pusher provoked any remarks which the Chronicle made on this paper. That the Mail has now apparently "found salvation" we are pleased to note. The party of clean government can do with all the support they can get.

There is we understand a suggestion that the Strathcona Police force should be permanently reduced to two in stead of three as formerly. We would counsel the most careful deliberation before any such step is taken. In our opinion the proper policy of this city requires at least three men on this paper. That the Mail has now apparently "found salvation" we are pleased to note. The party of clean government can do with all the support they can get.

YUKON SCANDALS.

(Telegram)

Hon. Mr. Sifton's organ devotes nearly three columns this morning to Rev. Dr. Pringle and the charges he makes against administration of the Yukon. The Free Press is, of course, quite as much the bitering of the Government and the Minister, under whose regime the corruption was most rampant, as the average lawyer appointed to defend a criminal—the Laurier government is the criminal in this instance. It would just as soon think of publishing a fair statement of the case as a lawyer would think of putting in the witness-box for the defence the witness who saw the thief steal the goods. This statement of the premises is absolutely fair, excepting that in the case of the Free Press its retainer is much larger than that of the average lawyer, and for proof we refer to the first place to the public accounts, and secondly to the bank account of the Minister, or rather, ex-minister.

As to Yukon conditions, the public doesn't know half. Much of the evidence of corruption and wrongdoing presented for the government's consideration, repeatedly substantiated by an accuser of high reputation, endorsed by scores of respectable business men of Dawson, is unfortunately scarcely fit for publication.

In this accused, Dr. Pringle, prepared to prove his charges? That is the question asked by the man who has probably not followed this case very closely.

The answer is YES. Then why is the evidence not before the government? The evidence is in possession of Premier Laurier. He has had it in his possession for months.

Why does not the government appoint a proper commission to investigate the charges? That question can be answered by Sir Wilfrid Laurier or some member of his Government.

Dr. Pringle is prepared to take, or tomorrow, or next week or later, to present his conclusive evidence before a commission empowered to examine witnesses under oath, not a far-fetched commission such as that entrusted to Commissioner Henderson, the Yukon political tool.

Dr. Pringle is prepared to go before a committee of the House of Commons to state his case and present the evidence. What more does the Government want? What is fairer?

Dr. Pringle asks no advantage. He would prefer that every accused official be in attendance at the enquiry and he will present the data, including probably photographs, in some instances, to substantiate not one but every one of the terrible accusations he has made against the administration of government and law in the Yukon of the Government of Sir Wilfrid Laurier. Is that not clear and plain?

Regarding the General Assembly The Tribune dealt with that subject very fully yesterday. Dr. Pringle was endorsed in a milk-and-water sort of way by that body, but its action apart from the resolution represents the true feelings of the genuine Presbyterianism in the Yukon scandals just about as fairly as Sir Frederick Borden or Hon. Clifford Sifton represent the

AUSTIN & PALMER

Phone 90 P.O. Box 343
Office 3 Doors West of
Dominion Bank

Within 1/2 of a mile from the centre of Edmonton and Strathcona.

1 Lot at \$150
2 Lots at \$180 each.

Terms 1-3, 6, 12, or on monthly payments.
No. 12—There are one or two quarters in his vicinity that are open for home-stand, 300 tons of Hay could be cut in the property this summer.

NO. 13—To RENT A FARM of 240 acres. It fenced 75 acres under cultivation. 20 House 24 x 24, Stables, etc., Rent \$200 per annum.

151—3/4 Acre lots \$150 each, on a good road half a mile from the City limits.

NO. 3—FOR SALE 893 ACRES, good oil, and supply of water, with a charming good of timber. This property is continually adapted or anyone desirous of starting a Stock Farm.

There are one or two quarters in his vicinity that are open for home-stand, 300 tons of Hay could be cut in the property this summer. Price \$250 per acre. Terms \$200 per acre cash and the balance in (6) six yearly payments at per cent.

150—\$25,000 will buy the Stock in Trade of a Dairy doing approximately close to this. This includes 1 registered Shorthorn Durham Bull, 14 head of Good Milk Cows, 2 Team weight 2,800 lbs. Binder, Mowing Machine, Truck Wagon, Democrat, Stieglitz, McCormick Hay Rake, Separator, Churn, Cultivator and Sundry Tools, Household Furniture, 15 Tons of Ice and the crop from 55 acres (Barley and Oats), 25 acres of Timothy, 20 acres of Wild Hay. All the implements and tools are new. This will produce an income at once.

NO. 4—FOR SALE 320 ACRES in a splendid farming district, with excellent house and farm buildings, all enclosed, close to school.

Price \$18 per acre, if taken before closing. After seeing the work done to be taken by valuation. Terms on this property are easy. This is worth your trouble to inspect, if you want a good farm.

NO. 6—FOR SALE 10 ROOMED BRICK HOUSE together with 3 lots, good table. The house has all modern improvements. Anyone wishing to see home in the best residential portion of the city will do well to look at this.

Price \$1000. Terms, any reasonable offer will be accepted. As part payment would be made for improved farm.

130—TO RENT 3 roomed house on Whyte Avenue East electric light, good water—Rent \$14 per month.

NO. 8—FOR SALE AN 8 ROOMED BRICK HOUSE in the heart of the City, together with 3 lots.

Price only \$1600. Terms, \$1000 cash, balance 6 and 12 months. This is a real bargain.

O.P.—FOR SALE 50 ACRES of land within easy distance of the city, suitable for anyone wishing to start a TREES FARM.

Price \$25 per acre. Easy terms can be arranged.

110—FOR SALE 320 acres, 18 miles from Edmonton, 200 acres fenced, 25 acres cultivated, 25 acres of hay land, 100 acres of timber land on which it is estimated that 120,000 feet of lumber could be cut.

Price \$6.65 per acre. \$200 Cash, balance 1 and 2 years at per cent.

120—FOR SALE 160 acres of land 6 miles from town of Chipman on the C. N. R. This property is all fenced, 25 acres under cultivation, excellent House and Buildings.

Price \$5,000.00. Terms \$1000.00 Cash, balance in 5 yearly instalments at 8 per cent.

South side of 5th Avenue North, from North East corner to North West corner.

South side of 2nd Avenue South, from North East corner to North West corner. Block 41.

Sherman Nominated at Chicago

Convention Hall, Chicago, June 19.—Congressman James S. Sherman of New York was nominated for vice-president by the Republican national convention on the first ballot. The total vote was: Sherman 616, Murphy 77, Guild 75, Fairbanks 1, Sheldon 10, absent 1.

Washington, June 19.—News from the foreign capitals points to great satisfaction at the selection of Mr. Taft as nominee for the presidency. During his recent tour Mr. Taft made an excellent impression and is universally regarded as well qualified for the White House.

BRITISH LIKE BIG TAFT.

London, June 19.—Taft scarcely could desire a more flattering receipt on this is accorded his candidacy at the hands of the British press. In the first place, the Britons like bulk and Mr. Taft's bulk strikes them as a three-pronged arrow sure to pierce the mental defenses of any opponent for the presidency if given the chance.

"Perhaps no other man," says the Times, "ever aspired to the American presidency with so varied and remarkable an experience as Mr. Taft has."

MYSTERIOUS DISAPPEARANCE.

Kenora, June 19.—While to-night's train No. 2, was delayed at the Gilbert shambles, a little girl mysteriously disappeared with a companion. She was travelling in care of the conductor from Winnipeg to Fort William. During the wait, among others she got off the train, but when it was ready to start she was nowhere to be found. The train was delayed while a search was made but without any result. It is rumored that she must have fallen from the lake.

It is even suggested that she may have been kidnapped, as there were a large number of foreigners about at the time. The search has been continued today, but without success up to the present time.

Minnit: There is no word of the missing little Olive Dupraw. Her father left Fort William to join the search at Kenora. The superintendent sent one hundred men to aid in the search.

TENDERS FOR SASKATCHEWAN'S PARLIAMENT BUILDINGS.

Regina, June 19.—Six western firms are tendering for the contract of constructing the new parliament buildings at Regina, the competition for which closes on Monday. There are two Regina firms, Snyder Bros. & Co. and Smith Bros. & Wilson. The former firm has the contract for the new postoffice and the latter firm built the new city hall. Two Winnipeg firms are tendering, the May-Sharp Construction Co., and the Kelly Bros. Construction Co. The tenders were required to pay \$100 for a copy of the plans and specifications, and tenders have to be accompanied by a marked cheque for \$100. It is not likely that the contract will be let for some little time, as the specifications call for tenders at several alternative schemes and materials, and it will be necessary for the department to take these into consideration before acting.

Dependable Drugs

Did it ever strike you how important it is that you should bring your prescription to a dependable drug store after you have consulted the best doctor you know? At a dependable drug store the best goods can be had without delay, and that the goods are right, kept, handled and dispensed. The interests of the customers must be guarded at every point even to the prices at which the goods are sold. We can justly claim that our store is dependable and will stand the closest scrutiny in every detail.

MINTYRE'S OLD STAND

Duncan's Condition Powders

FOR HORSES, CATTLE SHEEP

AND PIGS.

On horses it acts marvelously; it gives a good appetite, a glossy coat, a loose hide, a healthy appearance and purifies the blood; even during hard work they gain flesh and spirit. It cannot be equalled for building up broken down horses that are out of sorts and making them sleek, fat and high spirited.

Take None Other--There Is None Just as Good.

Ask your druggist for Duncan's Condition Powder, for Horses, etc.

The Conservative Platform

As Enunciated at Halifax and Other Places by Mr. R. L. Borden, Leader of His Majesty's Loyal Opposition in the House of Commons.

1. Honest appropriation and expenditure of public moneys in the public interest.
2. Appointment of public officials upon consideration of capacity and personal character and not of party service alone.
3. More effective provisions to punish bribery and fraud at elections, to ensure thorough publicity as to expenditures by political organizations, to prevent the accumulation of campaign funds for corrupt purposes and to prohibit contributions thereto by corporations, contractors and promoters, to expedite hearing of election petitions and to prevent collusive arrangements for the withdrawal or compromise thereof, to provide for a thorough investigation to corrupt practices and if necessary to appoint an independent prosecuting officer to enforce the laws so enacted.
4. A thorough and complete reformation of the laws relating to the Civil Service so that future appointments shall be made by an independent commission acting upon the report of examiners after competitive examination.
5. Such reform in the selecting of members of the Senate as will make that chamber a more useful and representative body.
6. A more careful selection of the sources from which immigration shall be sought, a more rigid inspection of immigrants and the abolition of the bounty system except under very special circumstances and for the purpose of obtaining particularly desirable classes of immigrants.
7. The management and development of the public domain (in which are to be included great national franchises) for the public benefit and under such conditions that a respectable proportion of the increment of value arising therefrom shall inure to the people.
8. The operation and management of our government railways by an independent commission free from partisan control or interference.
9. Development and improvement of our national waterways the equipment of national ports, the improvement of transportation facilities and subsequent reduction of freight rates between the place of production and market, whether at home or abroad and the establishment of a thorough system of cold storage.
10. The re-organization of the present railway commission as a public utilities commission with wider power and more extended jurisdiction, so as to establish thorough and effective control over all corporations owning or operating public utilities or invested with franchises of a national character.
11. The establishment after due investigation of a system of national telegraphs and telephones under conditions which shall be just to capital already invested in these enterprises.
12. The improvement of existing postal facilities, especially in newly developed portions of the country, and inauguration, after proper inquiry as to cost, of a system of free rural delivery.
13. A fiscal policy which will promote the production within Canada of all useful articles that can be advantageously manufactured from or by means of natural resources, having regard to the interests of the consumer as well as to the just claims of our wage-earning population.
14. The promotion by negotiation and other constitutional means of a system of mutual preferential trade within the Empire.
15. The restoration of the public lands to the Provinces of Alberta and Saskatchewan upon fair terms.
16. The unimpaired maintenance of all powers of self-government which have been conferred upon the Provinces of Canada under the constitution.
